## DETAILED ACTION

### *Continued Examination Under 37 CFR 1.114*

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on January 12, 2006, has been entered.

### *Claim Rejections - 35 USC § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 20 is rejected under 35 U.S.C. 102(b) as being anticipated by Markle (U. S. Patent Application Publication No. 2002/0171816 A1). Markle discloses in paragraph #93 making flat panel displays. Claim 20 is a product-by-process claim, with the product being a flat panel display. MPEP 2113 states **that the determination of patentability of a product-by-process claim is based on the product itself. The patentability of a product does not depend on its method of production.** The device or wafer produced in Markle appears to be the same

product as produced by claim 20. The Examiner can find no difference in the flat panel display produced in Markle than the flat panel display produced by claim 20 of the instant application. It is further noted that MPEP 2113 gives an example where the process of making the product was allowed, but the product-by-process was rejected.

*Allowable Subject Matter*

4. Claims 1-19 are allowed.

*Conclusion*

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents cited in the PTO-1449 are cited for the same reasons they were cited in Applicant's IDS filed March 24, 2005.
